

Grout Pump

ZMP 725

Key features

Pump performance

- Extremely compact vertical injection pump for space-saving installation
- Infinitely variable limitation of injection pressure and delivery rate
- ► High reliability and low-maintenance operation with good accessibility to the wear parts
- ► Fast suction stroke to prevent clogging by flushing the valves
- Cooling water connection for continuous operation and high ambient temperatures

Typical applications

- Injection of anchors, soil nails, and tension cables, as well as for sleeve pipes, rock, and contact injections
- Pre- and post-injections, pumping of bentonite suspensions for pipe and microtunnel driving and filling of pea gravel

Included as standard

- · Manual pressure and flow control
- Oil level, temperature, and filter contamination indicator
- ¹ Water to cement ratio = 1
- ² Filling ratio = 100%

Control

PLC
Lockable main switch, emergency stop
Pump ON-OFF

Optional

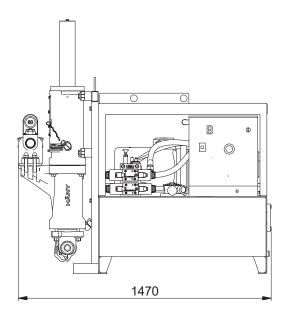

- · Low pressure control valve
- Plunger unit (85, 105 or 120 mm)
- Remote control
- · Data logging for pressure and flow rate

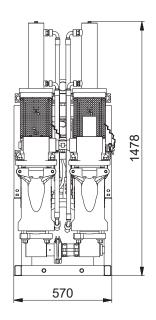

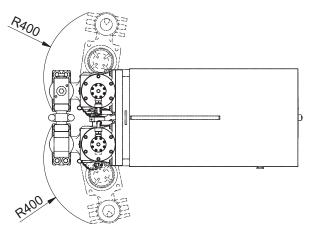

/	Electrical data		
	Voltage:	3x 400/460	
	Frequency:	50 / 60 Hz	
	Nominal power:	9.2 / 10.5 kW	

Weight and dimensions	
Approx. weight:	820 kg
Width:	570 mm
Height:	1,478 mm
Length:	1,470 mm
