

PUMP OPTIONS FOR MULTICRETE™ GROUT PLANTS

We sell solutions™

PISTON PUMPS

Twister Air model with piston pump, progressive cavity (p/c) pump, double acting plunger pump.

Hydraulic high pressure double acting plunger pumps (1000, 1500 & 2500 psi).

PROGRESSIVE CAVITY PUMP OPTIONS

- 2L8 - 44 GPM at 176 psi - 350 RPM Pump Closed Throat Pump
- 3L8 -44 GPM at 261 psi - 350 RPM Pump Closed Throat Pump
- 2C6, 2L6 have a volume output of 22 GPM if using a pump with a maximum pressure capacity of 176 psi at 350 RPM
- 3C6, 3L6 have a volume output of 22 GPM if using a pump with a maximum pressure capacity of 261 psi at 350 RPM
- 2C6, 2L6 have a volume output of 30 GPM if using a pump with a maximum pressure capacity of 222 psi at 350 RPM
- 3C6, 3L6 have a volume output of 30 GPM if using a pump with a maximum pressure capacity of 330 psi at 350 RPM
- 2L4 - 8 GPM at 176 psi - 350 RPM Closed Throat Pump
